

Beginning May 26th, all Republic Plumbing Supply Parts counters will again to open to the general public with the following guidelines in place:

- 1) No more than 4 people inside the counter area at one time. Orders will be limited to one customer per company. We do not want groups of two ordering for one.
- 2) Customers are to wear a mask upon entry. If you do not have a mask, we will provide one to you at the door. We will have a hand sanitizing station at the front door as well. Please sanitize your hands upon entry.
- 3) Access behind the counter is limited to employees only.
- 4) If a showroom is attached to the counter, no showroom entry will be permitted unless you have an appointment or permission from the showroom manager.
- 5) If you do not want to enter the store, you don't have to! Will-Call or curbside pickup procedures remain in place!

Thank you for your understanding and for continuing to be a valued and loyal customer.

Sincerely,

The Management of Republic Supply
